SI-FI – AI/TRANSHUMANISM

Premium THE LAST UNENHANCED Series

No law excludes him.
No border stops him.
No authority condemns him.
He simply no longer exists — where it matters.

THE LAST UNENHANCED

LOGLINE

In a society where biological and cognitive enhancements have become the norm, one man remains deliberately unenhanced. As institutions quietly recalibrate around optimized performance, he begins to disappear from everyday life — not by exclusion, but by incompatibility. Still legal, still free, still alive, he gradually loses access to work, mobility, healthcare, and recognition. When existence becomes conditional on optimization, being “natural” turns into a form of invisibility.

FORMAT

Social / Psychological Thriller

Serialized series

Season 1: **8 episodes**

Episode length: **52 minutes**

Language: English

Target: International / US premium platforms

TONE & DNA

The Last Unenhanced operates in a restrained, intimate psychological register. The tone is quiet, precise, and unsettling, aligned with the social determinism of **Gattaca**, the emotional containment of **Never Let Me Go**, and the near-future plausibility of **Years and Years** stripped of spectacle.

Dialogue is understated and functional. Conflict unfolds through interfaces, procedures, and silent refusals rather than confrontation. The world remains calm, polite, and efficient. The violence is invisible: delays, incompatibilities, and automated decisions. No one is hostile. The system simply moves on.

VISION

The Last Unenhanced explores a new form of exclusion: **existence without recognition**. In a world optimized for enhanced cognition and performance, institutions do not punish those who refuse — they cease to register them. The series examines how freedom can survive in principle while disappearing in practice, and how a human being can remain legally alive while becoming operationally irrelevant.

CORE MYTHOLOGY

Enhancement technologies are legal, accessible, and officially optional. No law mandates their use. No citizen loses formal rights for refusing.

Instead, systems adapt.

Work platforms, healthcare triage, transportation access, financial services, and civic participation are gradually optimized around enhanced profiles. Thresholds rise. Response times accelerate. Compatibility becomes implicit.

Those who remain unenhanced:

- are not banned
- are not punished
- are not persecuted

They are **never prioritized**.

They exist — but outside the system’s field of relevance.

SERIES DYNAMICS

Each episode explores a different layer of everyday life where invisibility manifests:

- employment without matching profiles
- consumption without recognition
- healthcare without urgency
- mobility without access
- social interaction without synchronization

The protagonist is not impoverished or rebellious. He follows the rules. He complies. He adapts — until adaptation itself becomes impossible.

Over time, he encounters others experiencing similar friction: not a movement, not a community, but a pattern the system cannot fully classify.

SEASON 1 — NARRATIVE ARC

Season 1 traces the transformation from individual anomaly to systemic blind spot:

- Normal life, subtle friction
- Repeated non-recognition across institutions
- Attempts to comply, retrain, adapt
- Realization that invisibility is structural
- Encounters with other “non-compatible” individuals
- Institutional observation without intervention
- Discovery that unpredictability disrupts optimization models

- Final shift: the system must choose between forcing enhancement or tolerating irrelevance

The season ends without revolt or resolution:
the protagonist is not removed —
he is **no longer counted**.

WHY THIS SERIES / WHY NOW

As enhancement technologies move from exception to expectation, societies face a silent transformation. *The Last Unenhanced* reflects a future where exclusion no longer requires oppression, and disappearance no longer requires force. It asks a disturbing question: what happens to human dignity when existence depends on compatibility?

It is not a story about rebellion.

It is a story about **vanishing without leaving**.
